Categories: [Coffee Tables](#)

Add extra surface space to your formal living room with this elegant antique coffee table. Crafted circa 1850, the cocktail base features two heavily carved vases with handles connected together with a stretcher with centre finial and carved foliage; the legs are finished with the original silver leaf finish. The grey and white marble top is in a rectangular shape and is probably a later addition. Together, the carved wood and the nicely shaped marble top are the perfect combination of antique and modern styles. Excellent condition with rich silvered finish. Measure: 47.5" W x 26" D x 24" H. SKU: 173-161
