Elevate any space with this striking pair of antique French oval mirrors. Crafted in France circa 1880 during the Napoleon III period, each mirror features a molded frame finished in deep black and decorated with intricate gilt foliate and palmette motifs in relief. The gilt decoration has developed a soft, aged patina that contrasts beautifully with the ebonized surface, lending depth and richness to the design. These versatile mirrors are the perfect size to hang over a pair of consoles, flank a fireplace mantel, or style in a hallway, master bathroom, or bedroom for a touch of symmetry. Their timeless combination of black and gold makes them easy to integrate into both traditional and contemporary interiors. The pair is in excellent condition commensurate with age and use, with newly replaced glass offering a clean reflection while preserving the antique character of the frames. Measures: 29.5" H x 25.25" W.
