Add character and charm to a front entry, garden, or terrace with this delightful pair of antique French “Pingouins” (penguins). Crafted in France from heavy cast stone, each sculptural bird stands upright on a circular base and is hand painted in a classic black, white, and warm orange palette. Their softly modeled forms and gentle expressions give the pair an endearing presence that reads as both playful and refined. Both penguins retain a beautifully weathered, patinated painted finish with authentic signs of outdoor use, enhancing their antique appeal. Substantial in weight at approximately 58 pounds each, they are ideal for flanking a front door, garden path, or patio setting where they provide stability as well as visual impact. Whimsical yet timeless, this charming antique pair brings personality and European garden style to any exterior space. Measures: 10” W x 10.5” D x 26.5” H.
