Decorate a garden, or a patio with this pair of antique planters. Carved in Burgundy France, circa 1870, each antique jardinière is rectangular in shape and stands over a bottom straight plinth; the flower pot is further embellished with hand carved vine motifs in high relief including grapes and leaf decor. The heavy sandstone planters are in excellent condition, and adorn a beautiful patinated verdigris weathered finish. Drainage hole in the bottom. Each outdoor pot weights over 75 pounds! Measures: 21"W x 13"D x 12"H.
