Categories: [Chandeliers](#), [New Arrivals](#)

Bring timeless French craftsmanship into your home with this elegant hand-forged chandelier. Crafted in France circa 1880, the six-light fixture features an elongated oval frame adorned with intricate scrollwork and decorative curls. Each light sits atop a circular bobèche with candle-style sleeves, providing both ambient and sculptural illumination. The twisted iron supports rise gracefully to a scrolled crown accented with subtle gilt highlights, adding a touch of warmth and refinement to the dark patinated finish. This finely detailed iron chandelier exemplifies 19th-century French blacksmith artistry, both functional and decorative, perfect above a dining table, entryway, or grand living space. Recently wired for modern use and in excellent condition commensurate with age and use. Measures: 48" W x 18" D x 33" H.
