Use this beautiful antique milk can as an umbrella stand by your front door. Crafted in Belgium circa 1880 and made of solid copper, the tall container is decorated with side handles and features the original removable top; it is further embellished around the perimeter with the engraving "Laiterie Florennes 60". The large and heavy pot is in excellent condition, and adorns a rich polished finish throughout. This would be a wonderful, decorative kitchen piece, or could also be used as a large vase to hold dried flowers for that Classic country French style. Measures: 13" diameter 20" height.
