Categories: [Vases, Jardinières, Planters & Centerpieces](#)

Decorate a console or buffet with this elegant antique vase. Crafted in France, circa 1880, the tall faience vase is beautifully shaped with a rounded body and a long, thin neck. Hand painted in the traditional blue and white palette, the sculpted vase features four different medallion scenes; the compositions include two courting scenes and two landscape scenes with traditional Delft motifs including a windmill and sailboat. The large ceramic vessel is in excellent condition and adorns soft patinated colors in different shades of blue. Marking on the bottom for further authentication. Measures: 10" diameter 22.5" height.
