Bring the outdoors in with this large and colorful, antique birdcage. Crafted in France, circa 1870, the large bird cage is in the shape of a house with slanted roof and dormer. The entire cage is painted gray, punctuated with red and black accents. The functional, wired bird house features two towers on the sides and a door in the center. Inside the birdcage are two hanging bird swings. The piece has a removable metal tray at the bottom for easy cleaning. The birdcage is in excellent condition, has its original patinated painted finish, and is the perfect new home for your avian friend!

Measures: 28.5" W x 17" D x 23" H.
