This antique "Billot de Boucher", or butcher block was crafted in southwest France, circa 1890. The large piece stands on four spindled-shaped legs ending with bun feet, and decorated with diamond shaped medallions in each corner. The block features a center drawer dressed with the original metal handle, over a carved scalloped apron on all three sides. The long table top made of mixed woods including maple and beech wood, features a carving station surface shaped from generations of use, embellished with decorative metal brackets at each corner, and decorative medallions across the front. The butcher table is in excellent condition commensurate with age and use, and adorns a rich light walnut patina. Place this charming work table in your kitchen or breakfast room for the ultimate Country French look, a true one of a kind!
