Decorate a garden or courtyard with this large heavy antique crane sculpture! Crafted in Normandy France circa 1870, and built of concrete, the bird stands on a round base with grass-like mound. The body of the crane is supported with straight legs attached to the round shaped base. The tall statue is in excellent condition commensurate with age and use, and adorns a wonderful weathered and patinated painted finish throughout; it is primarily white, with black plumage, a red beak and green base. The colorful stone garden bird will make a lovely addition to a patio, courtyard, or around a swimming pool!

Weight: 132 pounds!

Measures: 13"W x 27"D x 42.5"H.
