Bring warmth and depth to any interior with this richly figured Louis Philippe mirror. Crafted in France circa 1880, the frame features the classic rounded corners and clean silhouette of the Louis Philippe style, but is elevated by the use of burl walnut veneer, prized for its swirling grain patterns and natural elegance. The burl's golden-brown tones are bordered by an ebonized inner molding, creating a refined visual contrast that enhances the frame's architectural clarity. Retaining its original wooden plank back, the mirror is solid and well-constructed, with a surface that displays the subtle aging and patina characteristic of well-preserved 19th-century pieces. The mirror plate is clear and reflective, making it suitable for both decorative and functional use. Measuring 33 inches wide by 54 inches high and 1.5 inches deep, this antique mirror works beautifully above a console, in a dressing area, powder room, or as part of a gallery wall. Excellent condition commensurate with age and use. New hooks for hanging on the back.
