Decorate a breakfast room or game room with this elegant antique pedestal table from southern France. Crafted circa 1880 from walnut, oak, and chestnut, the round table features a beautifully constructed parquetry top showcasing geometric inlaid patterns framed within a circular border. The richly grained surface displays wonderful texture, natural movement, and generations of honest wear that add warmth and authentic country character.

The tabletop rests on a substantial turned pedestal support raised over a shaped triangular platform base embellished with hand-carved scroll feet in the Louis XIII taste. The sculptural base gives the table a strong architectural presence while allowing comfortable seating and versatile everyday use.

With its desirable scale and timeless silhouette, this antique French table would work beautifully as a breakfast table, center table, or card table in a den or game room. The piece is in excellent condition commensurate with age and use, and adorns a rich walnut patina throughout.
