Feed your baby in style in the antique child chair with attached feeding tray table. Crafted in Normandy, France circa 1870 and built of oak, the low chair stands on four turned legs ending with a bottom stretcher. The curved back with turned sides and round finials has three ladders, and the seat is dressed with hand knotted rush. The feeding tray table slides from left to right with lock mechanism (lifting the right circular peg), keeping child safe in place. The country chair is in excellent condition commensurate with age and use, and adorns a rich patina with lots of character. A true one of a kind! 15.5"W x 18"D x 22"H
