Categories: [Miscellaneous Accessories](#)

Decorate your kitchen counter with this elegant, colorful antique scale. Crafted in Versailles, France circa 1880, the scientific instrument is uniquely decorated with a Paris coat of arms in the center, with a sailboat and numerous Fleur-de-Lys throughout the design. The stately, embellished scale is flanked by Roman figures on both sides. The scale has its original pair of brass trays, and a complete set of weights. The Classic decorative kitchen accessory is in excellent working condition and adorns a rich patinated painted finish and well-maintained gilt accents. Both scale and trays are signed "Beauge Balancier Versailles". Measures: 20.5" W x 8" D x 7" H.
