Categories: [Miscellaneous Accessories](#)

This tall, antique stove was created in Lyon, France, circa 1870. Sited on bun feet and built in four separate sections, this colorful ceramic piece has a small brass door at the bottom to collect ashes, and a center door to feed coal or wood into the flames. The unique kitchen essential is in excellent condition with a rich finish in a neutral yellow and beige palette. This is a true one of a kind conversation piece for your home! Measure: 26" Diameter 58" H
