This beautiful, antique hippopotamus sculpture was crafted in France, circa 1920. The detailed leather figure standing on his four legs is in excellent condition and adorns a rich old patinated finish. The hippo's mouth is open as if it was roaring at you; its mouth bears four pointy teeth. Place this animal sculpture on a shelf in a study or library for a feel of Africa! Measures: 18.25" W x 7"D x 12.75" H.
