Accessorize your bar with this antique brandy barrel from Cognac. Crafted circa 1920, this oval oak barrel is embellished with six joining brass rims with original flat nailheads. It sits on a separate, removable base and features the original carved wood faucet and wooden cork at the pediment. The bar essential (which was used in bygone days to hold cognac for an after dinner drink), is in excellent condition with a rich walnut patina and would be a unique accessory to place on a counter or to adorn a game area. Measures: 9" W x 14.5" D x 12.5" H.
