Decorate an entry, living room or powder room with this elegant antique table. Crafted in France circa 1920 in the style of Maison Bagues, the tall table stands on slim brass legs ending with small paw feet. The surface is dressed with a circular variegated black marble top. Subtle yet grand in composure, the Directoire style recalls an earlier time in history; the table is in excellent condition, and adorns a rich patinated gilt finish. Measures: 14.25" Diameter 30.5" Height.
