Dress an entryway or living room with this elegant antique console table. Crafted in southern France around 1920, the table is made of solid walnut and features a beautifully scalloped apron and shaped top, typical of the French Louis XV style. The piece stands on elegant cabriole legs in the front and straight tapering legs in the back, offering a light, graceful silhouette. Three functional drawers provide practical storage and are dressed with original brass drop handles. The console boasts a warm and rich cherry patina, highlighting the natural grain and craftsmanship. The sofa table is in excellent condition commensurate with age and use, and adorns a rich walnut patina. Versatile, the tall console would be suitable for various spaces such as an entryway, hallway, living room, or even a den under a flat screen TV, offering both storage and style.
