

EARLY 20TH CENTURY FRENCH WROUGHT IRON AND BRASS BAKER'S RACK ON WHEELS

$7,500

SKU: 252-301
Stock: N/A
Categories: Misc. Furniture Pieces

Add grandeur and functionality to your kitchen, dining room, or garden with this monumental antique baker's rack. Crafted in France circa 1920, the nearly ten foot long étagère is hand-forged from sturdy wrought iron and enriched with decorative brass trim, turned finials, and rounded brass front rails. The frame features a exquisite dark patinated silver finish that highlights the scrolling motifs and lends the piece an elegant, subtly metallic sheen. The structure showcases beautifully formed "S" arabesques, curved end shelves with rounded corners, and cross-braced supports that provide both decorative interest and structural strength. Designed for both beauty and utility, the rack offers multiple tiers of open shelving ideal for displaying pottery, serveware, copper, or greenery. The dark silver patina and warm brass accents create a striking contrast, capturing the refined yet rustic character of early 20th-century French craftsmanship. For added practicality, the piece is set on six original iron caster wheels, allowing the entire unit to move easily for cleaning or rearranging a space. The baker's rack is in excellent condition commensurate with age and use, and its aged finish enhances its timeless architectural presence. Measures: 118.25" W x 19" D x 94.75" H.
