Place your keys or decorate an entry table or console with this substantial and luminous rock crystal bowl. Crafted in Brazil, the hand-carved dish features a rounded, organic form that highlights the natural clarity and veining of the crystal. The circular basin is in excellent condition commensurate with age and use, and displays a beautifully patinated clear finish with delicate internal inclusions and subtle mineral striations. Both decorative and functional, this sculptural vessel works elegantly as a dining table centerpiece, an accent on a sideboard, or as a refined vide-poche on a hallway console. Elevate your tabletop decor with this captivating hand-carved rock crystal bowl. Crafted from a single piece of natural quartz crystal, the vessel features a unique freeform silhouette that celebrates the raw beauty and natural contours of the stone. Its roughly hewn exterior contrasts with the smooth, polished interior basin, offering a striking interplay of textures and translucence. Likely intended as a decorative bowl, vide poche, or spiritual vessel, this sculptural piece is both functional and elemental, ideal for holding small items, incense, or simply admired for its light-catching clarity and natural mineral inclusions. In excellent condition, this contemporary organic-form bowl brings a sense of calm and grounded elegance to any interior setting from modern to wabi-sabi or minimalist design. 12"W x 9"D x 3"H
