Crafted in Brazil, this elegant hand carved rock crystal bowl features a substantial round form with a deep basin and exceptional clarity. The heavy crystal dish is mounted with a decorative gilt bronze rim, finely detailed with repeating oval and beaded motifs that add a refined classical accent to the natural stone. The contrast between the luminous crystal and the warm bronze mount creates a sophisticated decorative object. The crystal displays beautiful natural inclusions and subtle variations typical of genuine rock crystal, enhancing the character and individuality of the piece while catching and reflecting light across its polished surface. The bronze mount retains a rich patinated gilt finish that complements the clear tones of the stone. Both sculptural and functional, this decorative bowl works beautifully as a dining table centerpiece, as a vide-poche on an entry console, or as a luxurious accent on a coffee table or sideboard. The piece is in excellent condition commensurate with age and use. Dimensions: 11.25" Diameter x 5.75"H
