This elegant hand carved rock crystal bowl features a substantial round form with a deep basin and exceptional clarity. Expertly sculpted from a solid block of natural Brazilian crystal, the dish showcases the luminous beauty of the stone with its softly polished surface and thick, gently curved walls. The crystal displays beautiful natural inclusions and subtle internal veining typical of genuine rock crystal, enhancing the character and individuality of the piece while catching and reflecting light across its surface. These organic formations create delicate variations in tone and texture that make each angle visually unique. Both sculptural and functional, this decorative crystal bowl works beautifully as a dining table centerpiece, as a vide-poche on an entry console, or as a refined accent on a coffee table or sideboard where it can hold keys, jewelry, or small objects. Its clean, organic form allows it to complement both traditional and contemporary interiors. The piece is in excellent condition commensurate with age and use. Dimensions: 11.5" Diameter x 5.5"H
