This elegant pair of tall Pic-Cierges was created in Italy, circa 1880. Sitting on three small, square feet, the tall candlesticks have a triangle base with flower medallions on all three sides, a carved stem with acanthus leaves and a iron pricket at the top to hold a candle in place. The dramatic, embellished candlesticks are in excellent condition and have a rich two-tone patinated silver leaf finish. Measure: 10" W x 10" D x 35" H.
