Crafted in the French taste circa 1980, this tall giltwood mirror reflects the refined elegance of Louis XVI design. Standing almost six feet in height, the piece offers strong vertical presence while maintaining a slim and versatile profile. The narrow rectangular frame is accented with delicate beaded molding along the inner edge, creating a clean architectural outline that feels both classic and balanced. The top is crowned with a carved shell and scrolling crest, finished in a softly distressed green and gold surface that adds subtle depth and decorative interest without overwhelming the form. The beveled mirror plate enhances light and dimension, giving the piece a crisp, polished appearance. Its proportions make it ideal as a floor mirror, placed between windows, in a hallway, dressing area, or closet where height is desired but floor space is limited. The mirror is in excellent condition commensurate with age and use. Dimensions: 15.5"W x 1.25"D x 58"H
