**SKU:** 211-555

**Stock:** N/A

**Categories:** [Fireplace Decor](#)

Place this elegant Louis XVI-style fireplace tool set next to your mantel for a refined and functional accent. Crafted in France circa 1970, this serviteur de cheminée is made of solid metal with a rich gilt-painted finish, and features neoclassical motifs emblematic of the Louis XVI period. The set includes a shovel, poker, and brush, each with an ornate handle adorned with stylized acanthus and palmette finials. The tools rest on a decorative stand with an interlaced Fleur-de-Lis base, blending form and symmetry in the classical French manner. The gilt surface has a soft, warm sheen that highlights the intricate details while lending a luxurious, antique character. Both decorative and practical, this fireplace ensemble brings timeless elegance to any hearth. Measures: 14.25" diameter x 31" height.
