Decorate a den or a living room with this colorful polychrome garden stool. Created in China, circa 1970 and round in shape, the vintage porcelain seat is pierced on the top and around the perimeter for an intricate, sculptural effect. It is decorated with orange dot appliqués in high relief. The exotic Asian stool features different hand painted scenes with joyful Chinese people outdoor parading and fighting; both decors are further embellished with floral and foliage motifs. The vibrant, versatile ceramic seat is in excellent condition with rich colors in the pale green, pink, terracotta and white palette, and could also be used as an accent table on an outdoor patio. Measures: 13.5" diameter 19.25" height.
