Crafted in Holland, circa 1950, the large faience potiche features hand painted medallions with Classic Dutch flower and foliage decor. The traditional blue and white jar is round in shape and has a cone lid embellished with dog figure at the top. The tall jar is in excellent condition with rich colors throughout, and would make a colorful addition to a mantel, a commode or an enfilade. Stamped on the bottom. Measure: 9.5" diameter 17.75" height.
