

MID-CENTURY FRENCH BRASS AND GLASS TWO-TIER BAR CART ON CASTERS

$1,600

SKU: 253-183
Stock: N/A
Categories: Glass & Barware

This elegant French bar cart was crafted circa 1950 and features a classic mid-century design executed in polished brass with two circular clear glass tiers. The open, airy structure is supported by slender vertical posts topped with spherical finials, giving the piece a light architectural presence while remaining sturdy and functional. The upper gallery tray is removable and detailed with pierced brass decoration and integrated side handles, allowing it to be used independently for serving. The lower tier includes a built-in bottle holder ring and stabilizing rail, making it ideal for wine or spirits storage. Set on four rolling casters, the cart moves easily and serves beautifully as a bar cart, drinks trolley, or accent piece in a living room, dining room, or entertaining space. The brass shows a warm patina with light wear consistent with age and use, and the glass shelves are clean and well fitted. A refined and highly decorative antique-inspired mid-century piece that combines practicality with timeless French style. Dimensions: 19"W x 14.5"D x 27.5"H.
