This elegant mid-century French champagne or wine cooler was crafted circa 1960 and features a beautifully cut clear glass body fitted with polished brass mounts. The glass is formed with rounded, lobed panels that create a sculptural profile and it is anchored by a star-cut base that catches and reflects light with every angle. A thick brass rim crowns the top, flanked by two ring handles mounted on cylindrical bosses, giving the piece both balance and a refined architectural presence. Accompanied by its original metal tongs, this versatile piece may be used as a wine cooler or as an ice bucket for serving drinks, making it both decorative and functional for entertaining. Its generous proportions allow it to comfortably hold ice and bottles while maintaining an elegant, sculptural profile on a bar, table, or sideboard. The glass and brass are in excellent condition, commensurate with age and use. A timeless mid-century bar accessory well suited to French, Hollywood Regency, or classic interiors. Dimensions: 9.75"W x 7.75"D x 9.5"H
