Bring rustic charm and classical French elegance to your interior with this set of four ladder back chairs. Crafted in Normandy, France circa 1960, each tall chair reflects the traditional Louis XIII style, featuring bold turned front legs, twisted barley-turned stretchers, and scalloped ladder-back slats. The rich walnut frames are paired with handwoven rush seats in a classic chevron pattern, offering both comfort and inviting textural contrast. The straight, subtly splayed rear legs provide balance and a sense of visual lightness. Sturdy and comfortable, the chairs are in excellent condition commensurate with age and use, and they display a warm, rich patina that enhances their antique character. Ideal for a farmhouse dining room, country kitchen, or as accent seating in a rustic or traditional interior. 18.5"W x 15"D x 40"H
