Categories: [New Arrivals](#), [Dining Chairs](#)

Decorate a dining table with this elegant suite of six antique side chairs. Crafted in France circa 1960 and built from solid walnut, each chair stands on fluted and tapered legs accented with carved floral rosette medallions at the shoulders. The design features an oval, arched back and a wide, deep seat set above a subtly serpentine apron, offering both style and comfort. Both the seat and back are outfitted with finely handwoven cane, adding lightness and texture to the silhouette. The chairs are finished in a warm, rich walnut patina that contrasts beautifully with the delicate beige cane work. In excellent condition commensurate with age and use. These timeless dining chairs are ideal for both traditional and transitional interiors, bringing a graceful blend of form and function to any table setting. Measurements: 20" W x 20" D x 37.5" H
