Categories: [Miscellaneous Accessories](#), [New Arrivals](#)

Crafted in France circa 1960, this antique six-step folding ladder blends rustic charm with mid century functionality. Constructed from solid pine, it features six rounded steps and a rectangular top platform with a gently worn patina that speaks to decades of use. The wood showcases rich grain and natural variation, enhanced by its warm, timeworn finish. Brass hardware and steel support braces provide structural integrity while allowing the ladder to fold flat for easy storage. The original black rubber caps on the feet offer added grip and protect floors. The top step reaches 47.5 inches high, making it both a practical tool and a striking display piece. Ideal for use in a country kitchen, retail environment, or as a decorative accent in a rustic or farmhouse interior. Dimensions (open): 33" W x 14" D x 47.5" H (top step height) Dimensions (closed): 7.5" W x 14" D x 55" H Excellent antique condition with wear consistent with age and use.
