Make a statement of beauty in your home with this grand Regence period "buffet deux-corps." Carved in Paris, France, circa 1730, the antique oak buffet has been painted in a two-tone blue gray and white palette. The impressive, tall buffet has reverse bow shapes, straight lines and a bonnet top. Due to its interchangeable top door feature (see picture #3), the buffet can be used as an entertainment center or display cabinet with ease. The piece is in excellent condition with rich old paint finish. Measures: 80" W x 30" D x 129" H. SKU: 86-910
