Add grandeur and functionality to your kitchen, dining room, or garden with this large antique baker's rack. Crafted in France circa 1920, the nearly 10-foot-long shelving unit is built of hand-forged wrought iron and embellished with decorative brass trim and finials. The frame features elegant scrollwork motifs throughout, including curved side shelves with rounded corners and graceful "S"-form braces that provide both structure and style. With multiple tiers of open shelving, this impressive étagère offers ample display space for pottery, serveware, or greenery. The rich, dark patina of the iron contrasts beautifully with the warm brass accents, creating a refined yet rustic aesthetic characteristic of early 20th-century French craftsmanship. The baker's rack is in excellent condition commensurate with age and use, and displays an aged finish enhancing its timeless appeal. Measures: 118" W x 19" D x 91" H
