This exquisite pair of antique fruitwood doors was converted into a set of "encoignures" (French for corner cabinets). These corner pieces were made in Lyon, France, and have an arched top with deep, decorative carvings on each door and on the scrolled feet with three fitted shelves in each piece. The cabinets are in excellent condition, have a rich walnut patina, and 18th century locks and keys. Place these tall cupboards in a bedroom, dining room or living room for extra storage. Measure: 43" W x 30" D x 102" H. SKU: 112-269
