Decorate a bedroom with this elegant pair of antique nightstands. Crafted in France circa 1890, each cabinet is built of walnut and topped with its original gray marble surface featuring dramatic black and white veining and a molded edge. The bedside cabinets showcase the graceful lines of the Louis XV style, standing on short cabriole legs ending in escargot feet, and joined by a scalloped apron embellished with carved floral motifs. Each nightstand is fitted with a single drawer over a paneled cabinet door opening to a shelved interior, providing ample storage for bedside essentials. The drawer fronts and doors are decorated with beautifully figured walnut panels framed by molded borders, while the corners are adorned with carved foliage and shell motifs. The cabinets retain their decorative brass pulls and escutcheons, enhancing their authentic character. The antique nightstands are finished on all sides, allowing for versatile placement within a room. They are in excellent condition commensurate with age and use, and adorn a rich walnut patina throughout. A handsome and practical pair, ideal for a traditional, country French, or Louis XV-inspired interior. Dimensions: 19" W x 13.25" D x 33" H
