Bring the architectural highlights of France into your home with this pair of colorful, antique decorative earthenware wall platters. Crafted in high relief, circa 1920, the decorative, oval ceramic plates depict two of France's most well known icons. The first illustrates a Gothic cathedral, and the second shows an arch similar to the "Arc de Triomphe" in Paris. The pottery platters are in excellent condition with rich, well maintained colors.
Measures: 11" W x 13.25" H.
