These matching antique wall sconces were crafted in France, circa 1920. Each sconce features two newly wired lights over arms with decorative metal leaves and scrolled work, original candles with drip detail. Both wall lights have their patinated black painted finish with gilt accents on the leaves and the bottom and top finial. The large sconces are in excellent condition overall, and would make a nice addition to an entryway or on either side of a mantle. Measures: 16" W x 9" D x 19" H.
