Add timeless Provençal elegance to your garden or interior with this handsome pair of antique French Anduze planters, handcrafted in southern France and signed La Madeleine à Anduze. Each vessel is formed in terracotta and finished in a soft, traditional glazed surface with subtle green accents and natural tonal variations that enhance their artisanal character. The classic Anduze silhouette features a gently flared rim above a rounded body raised on a circular plinth base. Raised garland swags with floral rosettes wrap the midsection in relief, framed by incised bands and anchored by oval medallions, all inspired by 18th century French garden ornamentation. The interiors remain unglazed terracotta with drainage holes, appropriate for authentic garden use. The planters are in excellent condition commensurate with age and outdoor use, displaying a beautifully weathered patina, minor surface wear, and light glaze variations consistent with traditional firing techniques. Sculptural and versatile, this refined antique pair makes an elegant statement flanking an entryway, lining a garden path, or anchoring an interior orangery or sunroom. Dimensions: 11.5"W x 11.5"D x 13"H
