Light up a dining room with candles with this elegant pair of wall fixtures. Crafted in Italy circa 1980, each sconce features intricate hand-carvings with swag motifs over a vase in the Louis XVI style; each light has a double metal arm decorated with acanthus leaf in the center. The large sconces are not wired but are dressed with real wax candles. The tall candle holders are in excellent condition and adorn a rich two-tone polychrome patinated paint finish in the green and gilt palette; they would make a subdued and colorful addition to any room for the ultimate Italian look. Four tall candles included. Measures: 10" W x 6.5" D x 25" H.
