Categories: Sconces

Bring refined classical elegance to any interior with this striking pair of gilt bronze wall sconces, crafted in France circa 1980. Each sconce features two sweeping candle arms forming interlaced rings tied at the center with a sculptural ribbon motif. Delicate oak-leaf branches, finished in a contrasting patinated bronze, climb the vertical stem, adding texture, movement, and botanical charm. The lower section is adorned with a beautifully modeled tassel drop, while the upper crest is crowned with a bold ribbon finial. The sconces are newly wired and fitted with candle sleeve covers, ready for immediate installation. Their combination of warm gilt bronze, contrasting darker foliage, and elegant neoclassical styling makes them ideal for flanking a mirror, doorway, or mantel. These decorative fixtures are in excellent condition commensurate with age and use, offering a timeless accent with French sophistication. Dimensions: 18.5" W × 9.5" D × 34" H.
