Decorate a bedroom, living room, or study with this charming pair of antique side tables. Crafted in France circa 1960 and built of oak wood, each table is dressed and pegged with a rectangular plank top over a single drawer fitted with its original turned wooden knob. The drawers are crafted with traditional dovetail joinery and provide convenient storage for books, reading glasses, or bedside essentials.

The tables stand on elegant turned legs joined by a practical lower tray shelf and supported by bun feet, a design characteristic of Louis XIII-inspired furniture. Their compact scale makes them versatile pieces that can function as nightstands, end tables, or occasional tables throughout the home.

The solid oak construction showcases a rich, warm patina with beautiful grain patterns, natural knots, and age-related markings that add to their authentic character. The antique tables are sturdy, practical, and full of rustic French charm. The pair is in excellent condition commensurate with age and use, and adorns a rich walnut-toned oak finish with wonderful depth and character throughout.
