Elevate your interiors with this elegant pair of vintage bronze wall sconces in the Louis XV style. Crafted in France circa 1950, each single-light sconce features a richly patinated bronze finish and a sculptural foliate design inspired by Rococo motifs. The ornate back plates are adorned with cascading leaves and floral garlands, capturing the fluid curves and naturalistic ornamentation characteristic of the Louis XV period. Each gracefully scrolled arm supports a newly wired light decorated with a decorative candle cover sleeve, resting on a gadrooned bobeche that adds textural elegance and classical detail. The vintage wall sconces are in excellent condition commensurate and age and use, and are ideal for flanking a mirror, artwork, or doorway, bringing a refined touch of antique charm to any hallway, powder room, or sitting area.
