Categories: [New Arrivals](#), [Sconces](#)

Crafted in France circa 1960, this decorative pair of mid-century tôle wall sconces features an exuberant arrangement of hand-cut and hand-painted ivy leaves, each finished in deep green with delicately gilt-edged tips. The sculptural foliage wraps gracefully around the frame, creating a naturalistic backdrop for the two candle-form lights on each sconce. Each light is set in a flower-shaped bobèche and fitted with newly wired, cream-colored candle sleeves, bringing authentic vintage charm with modern functionality. Measuring 10.5 inches wide, 7 inches deep, and 15 inches high, the pair offers a beautifully balanced silhouette ideal for flanking a mirror, doorway, or bed. Newly rewired to U.S. standards and in excellent condition commensurate with age and use, these ivy-form sconces add warmth, texture, and classic French character to any interior.
