These Classic bird sculptures were crafted in France, circa 1980. The stately, vintage eagles are perched on a rounded rocky base. The sculpted birds have a weathered patinated and painted finish and could be used inside or outside, perhaps on either side of a front or back door. Both birds are in excellent condition commensurate with age and use, and adorn a rich and colorful two-tone finish, with natural paint dripping. Measures: 14"W x 10"D x 19"H.
