Rest your feet on this charming vintage elephant stool. Crafted in Spain circa 1970, the freestanding sculptural stool is formed in the shape of a stylized elephant and upholstered in its original brown leather. Hand-stitched leather panels define the body, legs, ears, and trunk, giving the piece strong sculptural presence and artisanal character. The leather surface displays a rich, naturally developed patina with subtle tonal variation and surface wear consistent with age, enhancing its vintage appeal. Both decorative and functional, this animal stool makes a delightful accent for a living room, study, or child's space, and is especially well suited for an animal lover or eclectic interior. The stool is in excellent condition commensurate with age and use. Dimensions: 21.5"W x 9.5"D x 15"H
