Categories: [Miscellaneous Accessories](#), [New Arrivals](#)

Decorate a rustic or ranch style home with this beautifully kept vintage brown leather saddle. Crafted in Switzerland by Stubben Saddle Company circa 1990, the vintage riding gear features the serial number A71991 with a brass plaque with previous owner's name. The saddle is in excellent condition and adorns a rich patinated finish. Stübben has been connecting riders and horses all over the world since 1894. From the heart of Europe, the fifth-generation family-owned business develops products that set new standards. They offer high-quality materials that aid high-quality sports performance. They are convinced that the well-being of the horse AND the rider is the basic prerequisite for this ideology. Thereby, their regularly patented innovations are based on the principle of supporting the biomechanics of the rider horse partnership. Measures: 22"W x 21"D x 20"H
